Dear Hiring Manager,

My name is Aria Samandi and I am interested in the role of Front End Developer Intern at centerfield that I found on BuiltInLA.com. I am interested in working as an intern for your company and I hope my qualifications make me a candidate for the role.

I am a web developer proficient in languages including Java, Python, JavaScript, and TypeScript. I am also familiar with various frameworks including Django, Spring, Express, Angular, Vue.js, and have begun to explore react. I am a fast learner, able to meet urgent deadlines, and have developed confidence when working with code. I have a passion for conversing code and reviewing algorithms. I routinely compete with my peers to see who can get the best answer or complete a coding challenge first. I also have 3 months of intern experience which makes me more qualified than interns with no experience.

I look forward to working in an environment where I will be able to contribute to a community of like-minded individuals focused on one goal. Please review the projects that I have worked on [My Portfolio](#).

Thank you for your time and giving me the opportunity to showcase myself for your company. I look forward to the next steps in the process.

Sincerely,

Aria Samandi
